

# ALS UNITED KINGDOM

## VITAMINS AND ADDITIVES

right solutions.  
right partner.

ALS offers a wide scope of accredited analyses of vitamins in food, dietary supplements, and cosmetics. We can also perform the analysis in food for special nutrition (e.g. baby food/). Clients receive fast and accurate analysis of their samples. Our dedicated laboratory facilities help secure the stability of vitamins whilst our professional and highly skilled staff are always happy to provide clients with technical advice and support.

- Vitamin A (Retinol)
- Vitamin E (Alpha-Tocopherol)
- D2 (Ergocalciferol)
- D3 (Cholecalciferol)
- K1 (Phylloquinone)
- K2 (Menaquinone)
- K3 (Menadione)
- Vitamin C (Ascorbic acid)
- Vitamin B1 (Thiamine hydrochloride)
- Vitamin B2 (Riboflavin)
- Vitamin B3 (Niacin)
- Vitamin B5 (Pantothenic acid)
- Vitamin B6 (Pyridoxine hydrochloride)
- Vitamin B7 (Biotin)
- Vitamin B9 (Folic Acid)
- Vitamin B12 (Cyanocobalamin)

These services within the UK are offered at our Hub laboratory in Chatteris, England. We also have an extensive network of laboratories also able to support vitamin and additive testing via ALS laboratories located in Prague (Czech Republic), Tondela (Portugal) and Salamanca (Spain).
